

11th Fragility Fracture Network
Global Congress 2023

Enlightening fragility fracture care

3-6 October 2023 • Oslo, Norway

FFN Congress 2023

Experiencing the FFN Congress as a Physiotherapist!

FFN has a mandate to improve the lives for people who have sustained a fragility fracture. It supports care provided through an interdisciplinary team. The Congress has been designed to support learning in all disciplines. Here are examples of the topics most relevant to physiotherapists.

Don't miss the **Session by the Physiotherapy and Fragility Fracture Recovery Research Special Interest Groups** and a **Special Symposium on Rehabilitation on Pre-Congress Day!**

- Advanced physio practice
- Digital mobility
- Exercise interventions
- Rehabilitation for Life

Top presentations to attend

- World Falls Guidelines 2022; Status of implementation
- Rapid and intensive rehabilitation – is it possible?

Innovative workshops you shouldn't miss!

- What we know about mobility after hip fracture and what we need to know to improve it
- Weight bearing orders following fragility fracture – is restricted weight bearing ever warranted?

Top experts to meet and share your work with!
